

Dear Members,

The Literific has such potential and I, **Thomas McCormack**, as your **Treasurer**, will deliver this potential because I am unwaveringly ambitious for this society. My one and only mission is **value for your membership fee**.

I will work with council to financially support:

- **Not only expanding the QUB Open but also doubling it, running a new competition for amateurs.**
- **Not only helping expand the Literific Schools' competition but doubling it, creating a new competition for BP so that we can track and build talent early.**
- **Personally, getting the Literific involved in Model UN.**

Most importantly, I will increase value by **improving the Thursday night experience**, investing in what is important to you.

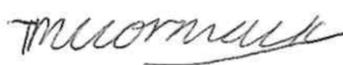

By building our talent and having every reputable university from the British Isles come here to debate, **our reputation will grow like never before...**

All of this is only possible with a treasurer that can **deliver strong results**.

And these results will materialise with these commitments:

- **I will launch an outreach campaign, sending a wave of targeted emails to businesses across the island to sponsor our meetings.**
- **I will develop a thriving, profitable alumni network, hosting raffles, debates and sending newsletters.**
- **I will apply to every grant, award and scheme possible.**
- **I will ensure that every IV we host will deliver surplus revenue to our members.**
- **I will support, leveraging my experience from two internships in the semiconductor industry, the development of a new Literific website to professionalise this society.**

Faithfully yours,

VALUE FOR MEMBERS
